

Week of Mar 20th

What have I worked on?

We are currently working on the new dataset received from the client and the public dataset relevant to our project. We also worked on the client presentation this week.

What will I be working on next?

Quang- 311 dataset

Akarvin- Demographics

Pranesh and Anargh - restructuring the code base and combining analysis efficiently

Have I run into any issues? Do I need help?

We faced some trouble in finding time to work on the project because of other commitments. However, results were still delivered by the end of the week.

Team Lead: Have I talked to the client recently? When are we meeting with them next?

No, we had our client presentation recorded with our PM to be reviewed by the client.
