

# **Week of Mar 27th**

## **What have I worked on?**

We are currently working on the feedback received from the client. Trying to normalize data

## **What will I be working on next?**

Quang- Identify the poor conditions in relation to the areas of importance

Akarvin- Identify the important transit stops and schools we need to focus on (the ones that have most hazards and need repairs)

Pranesh - Climate dataset- to identify the people of disability within regions

Anargh - Normalize stats with other parameters to have a better understanding of the data

## **Have I run into any issues? Do I need help?**

No.

## **Team Lead: Have I talked to the client recently? When are we meeting with them next?**

Yes, we had our client meeting this week. We would meet him next after two weeks.
